## GENERAL INDUSTRY | Foundry

In their « foundry » version, ASP covers are made with specific coated technical fabrics. This ensures full compatibility with Die casting processes (resistance to abrasion) and enables the covers to last for several years. While meeting your constraints, the « tailor-made » designs ensure maximum efficiency without limiting robot movements.

## TELUPRO

Polyamid texture | Coated with grey rubber

Guaranteed silicon free

Waterproof

One side coating

Washable

Repairable

Flexible

ATEX painting

REACH compatible

RoHS 2
